

The Source.

The absolute perfect unconsciousness is unknowable. Humans, ETs and Arch Angels do not have the abilities to cognate this unknowable something. It is beyond life and death. It is beyond being and non-being. This absolute perfect unconsciousness is “not” a state of existence. It is beyond the “void” of existence. It can not even be said to exist. However conscious awaken beings are able to speculate it as ideal. We can create in our minds, the image of the metaphor of “the candle that is reflected in the mirror”. We only see the image of its light rays and not the candle. It is said to be the source of all things. All religions of earth worship the rays of light and not the “candle”. Only the 5th degree Master worships the candle. Truly ignorance is its own punishment! Humans should not get their thinking done by religious proxy. “There are more things in heaven and Earth, Horatio, Than are dreamt of in your philosophy!”

Disinformation

Good and Evil are two hands folded in prayer. This is the essence of evolution. Disinformation employs this notion. How? First you put out a False story that has elements of truth embedded within the story line. Then you put out a True story that has elements of lies embedded within the story line. This creates uncertainty and confusion. All humans fear the unknown. Once this is achieved any disinformation that gives security and comfort to the public mind will be embraced. It doesn't matter if the information is a lie. It is a basic fight or flight response. That is, all human pursue pleasure and avoid pain. It doesn't matter if Disinformation is physical or psychological. Humans always respond the same to pleasure and pain. That is, unless, they have received theological training and obtained a certain level of initiation into the Ancient mysteries they can be easily manipulated by others.

Barda my ET mate says: “No nukes! We will ensure these weapons won't work. America and Russia know we can shut their systems down! We have stop their testing programs before. We will interfere with any “military” that tries to use these weapons on another state.”

Five North Korean drones crossed into South Korean airspace on Monday. Japan, USA, Philippians, Australia, India and Taiwan ought to invade North Korea and end that government. Either go to war now or we will surely go to war later. No matter what war is coming.

Per ET Advice: Thousands of customers in Pierce County, Washington, were affected Sunday the 25th when burglars vandalized three energy substations by "Radical Right Wing Extremists ". **NS 12-26-2022**

Hank the W56 ET came to me last night. This was a few days after I have the strange marks on my feet. I confirmed they were not from "bed bugs". I believe it was a medical intervention by the W56 meant to extend my life cycle. Then last night before bed Hank started projecting electrons into my retinas which is the sensitive part of the eyeballs for seeing. This is not like the Space Brothers technique of telepathic communication! It blacked out my normal vision partially. So I turned off the lights in the room and in the blackness I could clearly see inside a UFO. It was brightly lite with a lot of colorful instruments. I'm not sure if this was Hank's ship. However, Hank still used the space brother's telepathic technique for the audio. I was wide awake. Two different data sources: telepathic & projecting electrons into my retinas?

"Slava Ukraini!" [Glory to Ukraine]

If "Moscow" thinks they can take the flower of youth from their member states and send them to die in Ukraine it will lead to the 2rd breakup of the old Soviet Union.
